

UBS ADDS BELL CANADA AND ROGERS TO THE INUKSHUK LAWSUIT

Toronto, April 25, 2007 – UBS Wireless Services Inc., (“UBS Wireless”) a wholly owned subsidiary of Unique Broadband Systems, Inc. (TSX Venture: UBS), filed a statement of claim on April 21, 2004 against Allstream Corp., Microcell Telecommunications Inc., Microcell Solutions Inc. and Inukshuk Internet Inc., for, amongst other things, specific performance, breach of contract, breach of confidence and breach of fiduciary duty in respect of a Right of Use and Right to Match Agreement between UBS Wireless and Inukshuk Internet Inc. (“Inukshuk”) for spectrum licenced to Inukshuk.

UBS Wireless has instructed its counsel to bring a motion to add the Inukshuk Wireless Partnership, owned directly or indirectly 50% by Bell Canada and 50% by Rogers Communications Inc. (“Rogers”), as a defendant to the original lawsuit.

The proposed addition of Inukshuk Wireless Partnership to the claim is a result of the action dated March 30, 2006, whereby Bell Canada and Rogers caused the Multipoint Communications Systems (MCS) licences that were held by Fido Solutions Inc. (formerly Microcell Telecommunications Inc.) to be transferred to the Inukshuk Wireless Partnership, even though the asset itself was the subject of litigation for specific performance.

The assets and rights that need to be protected are significant to UBS shareholders and as such the Company intends to vigorously pursue these rights.

UBS has retained McMillan Binch Mendelsohn LLP to litigate this claim as Lenczner Slaght Royce Smith Griffin LLP, UBS’ previous counsel, removed themselves as counsel since that firm was conflicted because of its relationship with Bell Canada.

About Unique Broadband Systems, Inc.

UBS is a publicly listed Canadian company that has a 51.6% fully diluted economic interest in Look Communications Inc. and other assets. With its licensed spectrum through its subsidiary, Look, UBS is a Canadian digital television broadcaster and broadband wireless service provider.
