

## **UBS FILES STATEMENT OF CLAIM AGAINST BELL CANADA AND ROGERS**

Toronto, Canada (August 23, 2007) - UBS Wireless Services Inc., (“UBS Wireless”) a wholly owned subsidiary of Unique Broadband Systems, Inc. (the “Company” - TSX Venture: UBS), today announced that it has filed a Statement of Claim with the Ontario Superior Court of Justice against the Inukshuk Wireless Partnership (the “Inukshuk Partnership”), owned directly or indirectly 50 per cent by Bell Canada (“Bell”) and 50 per cent by Rogers Communications Inc. (“Rogers”).

The Statement of Claim seeks, amongst other things, a mandatory order requiring the Inukshuk Partnership to return to Fido Solutions Inc. (“Fido”, formerly Microcell Telecommunications Inc.) any and all rights or licences to use or exploit the Inukshuk Multipoint Communications Systems (MCS) Spectrum and such other, interim, interlocutory or final relief as may be necessary to enable Fido to comply with any order requiring the specific performance of certain obligations to UBS Wireless.

UBS Wireless filed a Statement of Claim on April 21, 2004 against Allstream Corp., Microcell Telecommunications Inc., Microcell Solutions Inc. and Inukshuk Internet Inc. (“Inukshuk”), for, amongst other things, specific performance, breach of contract, breach of confidence and breach of fiduciary duty in respect of a Right of Use and Right to Match Agreement between UBS Wireless and Inukshuk for the MCS spectrum licenced to Inukshuk. On or about March 30, 2006, Rogers and Bell caused the MCS licences that are the subject of that litigation to be transferred to the Inukshuk Partnership and any successful result of this claim will result in a direct claim against each of Bell and Rogers.

The assets and rights that need to be protected are significant to the Company’s shareholders, and as such, the Company intends to vigorously pursue these rights. Regulatory approval transferring the rights in the MCS Spectrum to UBS Wireless will be required upon a favourable decision by the Court. The outcome of the Court’s decision or the decision of any government department or agency, or other regulatory body cannot be predicted at this time.

About Unique Broadband Systems, Inc.

UBS is a publicly listed Canadian company that has a 51.6 per cent fully diluted economic interest in Look Communications Inc. and other assets. With its licensed spectrum through its subsidiary, Look, UBS is a Canadian digital television broadcaster and broadband wireless service provider.
